RE: Recognition of WBC MTNA as Sanctioning Body in Texas

Dear Sir,

We at the WBC Muay Thai North America would like to thank your for your consideration and continued support of Amateur Muay Thai in Texas. Our goal as a sanctioning body is to promote fighter safety, foster understanding and acceptance of the rules and regulations of Muay Thai, and to host events where amateur fighters in North America will gain valuable experience with which to enhance their fighting skills.

We at the WBC MT NA understand that you have been working closely with Mr. Kayan Sitsanthaparn to establish a mutually acceptable set of rules for the amateur side of the sport, based on the professional Muay Thai rule set. We have always fully supported Mr. Sitsanthaparn in his efforts to bring this elegant sport to the attention of fans and practitioners in Texas as he is our designated liaison and main representative in Texas.

We would like to bring WBC MT amateur fights to Texas, and to that end, we as an organization, with Mr. Sitsanthaparn as our representative, are requesting that the State of Texas recognize WBC Muay Thai North America as a sanctioning body for Amateur Muay Thai. An environment with a view towards safety and organization will allow the sport of Muay Thai to grow in Texas and I sincerely hope that we have a chance in the future to meet at one of these events in your state.

Sincerely yours,

Dej "Nokweed" Sriampai

WBC MTNA Head Representative and WBC Muay Thai Executive Ring Official
